

# KILN LOG

date: \_\_\_\_\_

The electric kiln is manually controlled during a firing and **training is required to fire the kiln**. The length of a firing typically ranges between 7 to 9 hours and the kiln reaches temperatures of nearly 1000 °C! Two people are responsible for each firing to ensure a safe experience for all. Be mindful and **do not leave the kiln unattended for longer than 1 hour while firing**.

## FIRED BY

Name: \_\_\_\_\_ Name: \_\_\_\_\_

(has supervised at least 3 firings)

Total time:

\_\_\_\_\_ hrs

## SAFETY CHECK

- ⇒ Not wearing very loose fitting clothes during firing.
- ⇒ There is nothing combustible under or around the kiln (within 12”).
- ⇒ The ventilation fan is on (needs to be plugged in to turn on).
- ⇒ Timer is set for a maximum of 10 hours.

## PAYMENT AMOUNT

suggested \$1 / hr

\$ \_\_\_\_\_

FIRING STAGE	DESCRIPTION	NOTES	START TIME	INITIAL
Candle	Both dials on low; lid is propped; peeps are closed (~1 HR)			
Low	Both dials on low; lid is closed; peeps are closed (~1HR)			
Middle	Turn both dials to 4 for 1hr and incrementally up by 1 each hour after up to 6. Watch for a dull glow in the peeps.			
High	<b>Once dull glow is visible turn both dials up to HIGH and turn off fan.</b> Check every half hour for colour glow (red-orange to bright orange).
